

### Remarks

As an initial matter, Applicant respectfully requests entry of the foregoing amendment, which is being submitted in view of the Examiner's comment in paragraph 8 of the subject Action.

In the subject Action, the Examiner rejected claims 1 and 3-8 as being anticipated by and/or obvious in view of the cited patent to Eschenbach. Applicant respectfully traverses this rejection and requests reconsideration in view of the above amendment and/or the reasons set forth below.

With or without any additional claim of priority, Applicant questions whether the Eschenbach patent can be considered prior art under either 35 U.S.C. 102(a) or 35 U.S.C. 102(b), since (a) U.S. Pat. No. 5,707,321 (filed on June 30, 1995) provides conclusive evidence that Applicant invented the claimed invention prior to the filing date of the Eschenbach patent (September 9, 1996); and (b) the filing date of this application (April 23, 1998) precedes the issue date of the Eschenbach patent (August 4, 1998).

In paragraph 8 of the subject Action, the Examiner noted that Applicant has not provided a substitute Declaration to claim the benefit of U.S. Patent Application Serial No. 08/497,377. Submitted herewith is a Substitute Declaration of Inventorship and Power of Attorney, which claims the benefit of both the '377 application (the parent to 08/914,206) and United States Patent Application Serial No. 08/535,566 (the parent to 09/030,133).

Finally, the Examiner rejected claims 1-9 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims of U.S. Patent Nos. 5,938,570, 5,897,463, and 5,707,321. Submitted herewith are both a Terminal Disclaimer and payment of the associated fee.

In conclusion, Applicant respectfully requests entry of the above amendment and reconsideration and allowance of this application. The Examiner is always welcome to contact the undersigned representative of Applicant to discuss any matter regarding this application.

Respectfully submitted,
